WIRDDrive
Storage as a service (SaaS)

Sync, Store, Share Your Files Securely with WIRDDrive

Choosing WIRDDrive provides your company with a professional solution for file sharing and collaborative work on the Internet.

Security	✓ Maximum security: Our dedicated and redundant data centers are located in Switzerland ✓ Each platform is built in a private cloud ✓ The integrity of your data is checked each time it is modified ✓ Daily backup of your data in a second data center ✓ Every file or even a complete platform can be recovered up to 30 days after deletion ✓ Before a version upgrade, WIRDDrive passes more than 5000 tests
File Sharing, Confidentiality and Traceability	✓ Share your files directly from the platform by creating user accounts ✓ Your correspondent receives a link to access shared documents. No account and no connection to the platform is required. ✓ Event logs and full traceability of actions performed on the platform ✓ Configurable e-mail alerts for each folder of the platform: your users are automatically notified when a document is filed or updated
Collaborative Working	✓ With WIRDDrive, discover entirely new team working possibilities ✓ Access your data without time or location constraints ✓ Exclusive access lock prevents other users from modifying a document at the same time ✓ Version history of a file can be reviewed ✓ Annotations on folders and files are possible, similar to a post-it note ✓ Real-time notifications: each team member is automatically informed as soon as a file is modified
Intuitive Web Interface	✓ With WIRDDrive, you manage your user's access rights in a detailed manner ✓ Every user has a personal account to access WIRDDrive ✓ Choose which user or user group can access what information on the platform, and what actions can be performed (browse, read, download, add, modify, delete and invite another user) ✓ Share a folder with as many users or groups as necessary
Synchronisation Agent	✓ A software agent can be installed on your Windows, iOS or Linux computers and synchronizes selected folders ✓ Distribute your documents to your team members in real time ✓ Files are automatically synchronized on WIRDDrive ✓ Detect file changes in order to only transfer the modified data
Mobile Application	✓ Access your data online from anywhere ✓ Application on IOS and Android
